

MILLE 997

ITALIAN DESIGN - BORN TO AMAZE

MISSION

Mille997's mission is to create wallcoverings and furnishing elements which generate **emotions** as well as the living spaces where these products are placed for a better interpretation of the dwellers' **style, values and personality.**

HISTORY AND VALUES

Established in 2019, Mille997 has become a benchmark brand within the **world of interior design** **Made in Italy.**

It is commonly recognized and most appreciated by its customers as supplier of **high-level, bespoke projects** which, due to the employment of various materials and innovative technologies, become highly productive, personalized solutions aiming at astonishing.

PRODUCTS AND SERVICES

Thanks to its know-how and the implementation of cutting edge technologies, MILLE997 can manage printing of whatever graphic file on **wallpaper, glass, plexiglass and ceramics.** Laser technology is applied for decoration of various surfaces. Mille997's portfolio includes the production of design tables.

COLLABORATIONS

Leveraging on a forward-thinking attitude, Mille997 collaborates with architects, interior designers, shop fitters, office planners, contractors, hospitality and wellness branches for the realization of **innovative collections and products.**

WALLPAPERS

Mille997's wallpaper collections feature countless, exclusive design solutions, all customizable both in terms of patterns and colors. The extensive variety of available supports intends to satisfy various requirements and stands out for the high quality and performance levels which make it ideal for different applications.

LUX997

WATERPROOF997

DUCK997

ECO997

Mille997 wallpaper features 4 different supports, available on demand to satisfy different needs.

LUX997

The LUX997 with a viscose-made support and a TNT (non-woven fabric) base shows an unusual, velvet-like visual effect and is designed to induce a unique sensorial experience. It contributes to the enrichment of living spaces by delivering high-quality levels of comfort and luxury.

WATERPROOF997

The Waterproof997 support features a compact and durable glass fiber, scratch resistant and suitable for high-traffic areas. It is breathable and water repellent therefore suitable to be used in wet rooms such as bathrooms, shower cabins, swimming pools and wellness areas. When installed, special impregnating and sealing products are utilized to avoid humidity infiltrations.

DUCK997

DUCK997 is a TNT-based support featuring a fine, similar-to-canvas textile web. This technical, elegant and multipurpose material is utilized at best for wallcoverings in commercial areas such as hotels, restaurants, offices, shops as well as in private homes.

ECO997

ECO997 features a PVC and chemical solvents free wallpaper representing an eco-friendly, sustainable choice both due to its low carbon footprint and to the undeniable comfort and well being that a natural product can deliver. It is suitable for both commercial and residential.

DECORATIVE PANELS

Designed and created as furnishing elements of great aesthetic impact, MILLE997 decorative panels can be made of different materials such as glass, plexiglass and ceramic

CRYSTALGLASS DECORATIVE GLASS PANELS

Mille997's decorative glass panels are produced applying state-of-the-art technologies. They're supplied in a 9 mm thickness and in a maximum size of 150x300 cm. Panels can be back-lit..

PLEXIPANEL DECORATED PLEXIGLASS

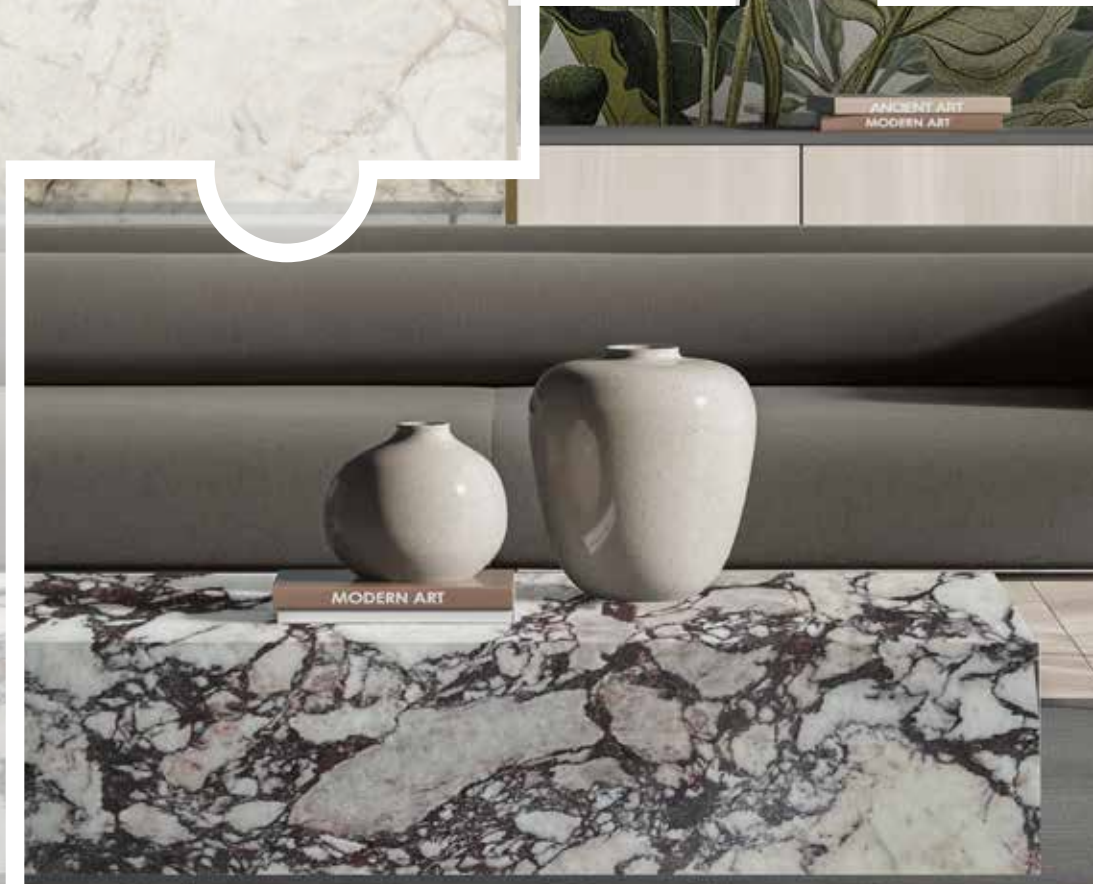

A viable alternative to glass featuring very light, 3-mm thick panels in a maximum size of 200x300 cm. Plexiglass panels can be back-lit.

WALL TILES DECORATED CERAMIC TILES

Mille997's large size decorative ceramic panels are available in a 6 mm thickness and a 100x300 cm max. size. They're unique pieces for indoor and outdoor wallcovering.

DESIGN TABLES

Exclusive and original furnishing elements made of glass or precious marbles. These unique pieces enhance the appeal of living spaces and contribute to their personalization.

The designer tables from **Mille997** are unique pieces, handcrafted and planned using:

MARBLE

Mille997 utilizes unique marbles for the production of made-to-measure design tables which stand out for quality and variety of shapes.

GLASS

Mille997's digitally printed glass side tables are an original, viable alternative to their marble version.

LASER ENGRAVING

A cutting-edge technology that allows for a personalized aesthetic enhancement of surfaces such as marbles, wood, glass, ceramics etc.

Mille997's high-temperature laser technology applied for surface decoration generates long-lasting, particularly refined effects.

Geometric, floral, abstract patterns etc. and can be reproduced and customized to satisfy any specific requirement using the following materials:

CERAMIC

WOOD

GLASS

MARBLE

BESPOKE DESIGN

Mille997 actively manages each single step undertaken for the development of the project required by the customer. Graphic files are adapted to different surfaces and adjusted for the specified wall sizes. Any special requirement for materials and designs not included in the general catalogue is taken into consideration and the original project can be adjusted consequently in order to create a unique and made-to-measure living space.
